

# THE WILLIAM A. PRESTI CENTER PRESENTS

## Kaleidoscope: A Therapeutic Experience for Teens

The William A. Presti Center is proud to announce a new program beginning Fall 2019:

The Kaleidoscope program. This is a new, innovative therapeutic experience designed by and for teens.

### The Kaleidoscope Vision

#### *Client-Centered*

- Give teens in our community the opportunity to develop a therapeutic program with services catering to their needs.
- Provide therapeutic groups and other mental health services based on feedback we receive from teens.

#### *Collaborative*

- The staff at the William A. Presti Center collaborated with teens to develop and create the Kaleidoscope program waiting area.
- The result: an interactive, inspiring space featuring original artwork and design concepts provided by teens.

#### *Feedback-Focused*

- We are asking for feedback, suggestions, and ideas from all teens in our community to continue the Kaleidoscope development process.
